GENERAL INFORMATION

The HopArts steering committee reserves the right to select exhibitors based on type and quality of work, and proximity to Hopkinton and Richmond. Artists should present work which is created by the artist/applicant and demonstrates artistic originality, mastery in the medium, creativity and craftsmanship in its making. The HopArts committee has the right to jury out any work that doesn't feel like a good fit in relation to copyright or originality.

Please refer to the map of the area on our website. A limited number of visiting artists who reside outside the geographical area are invited to apply provided they can be matched with a host artist within the area and do not duplicate the type of work being exhibited by artists within the specified geographical area. Please indicate on your application if you have a sponsoring artist within the exhibition area of Hopkinton and Richmond, or if you need a host studio.

Applicants will be notified no later than May 30 regarding their acceptance into the HopArts Studio Trail to be held on October 14 and 15, 2017. If an applicant is not selected, application fee will be refunded. Group applications are not considered; each participating artist is responsible for a separate application and fee. A RI resale tax permit is required of each participant and is the responsibility of the artist for obtaining such permit and any required reporting.

If you've participated in the Studio Trail before and have new/changed information, check the "New" box where applicable.

Thanks!
